

Stewardship.
Appreciation.
Love. Respect.
Recognition. Support.

These are reasons to make a tribute gift. It is an enduring way to keep alive the memory of a special person or occasion for generations to come. And it enables the Lady Bird Johnson Wildflower Center to carry out its work—finding ways to address environmental challenges with native plants.

The mission of the Lady Bird Johnson Wildflower Center is to increase the sustainable use and conservation of native wildflowers, plants and landscapes.

TRIBUTE PROGRAM

A Living
Legacy

Lady Bird Johnson Wildflower Center

A tribute is the perfect way to:

- Honor a friend or loved one
- Make a meaningful gift to an avid gardener or plant lover
- Recognize special accomplishments of an associate or employee
- Commemorate a special occasion—a marriage, the birth of a child, a birthday, anniversary or promotion
- Make a memorable holiday gift in the name of someone you care about for Mother’s Day, Father’s Day, Grandparents’ Day, Valentine’s Day, Christmas, Hanukkah
- Create a lasting memorial in honor of a departed loved one

...all while supporting the important work, research and educational outreach of the Wildflower Center.

There are so many wonderful reasons to give a tribute, and we provide a variety of options to meet your needs. You can choose to adopt a tree, donate a bench, contribute a garden space or just make a general donation. One of our most popular options is to dedicate a bench that will remain in perpetuity in a beautiful spot at the Wildflower Center. We offer both teak benches and an aluminum bench exclusively designed by KGA Designs. Both come with a plaque that commemorates the person or event of your choosing.

If you have a special request, please call us at 512.232.0138, and we will help you fulfill it.

If your gift is made in another’s name, we will send a letter of acknowledgment to the person(s) you specify, and gift amounts will remain confidential.

We are extremely grateful for your consideration, generosity and support. YOU help us save, conserve and demonstrate the value of native plants.
