

Hike Observation Sheet: Pollination

On your hike today keep your eyes out for pollinators at work. When you find one, draw and write the name of the flower in the correct column below.

Bee Pollinated Flowers 	Butterfly Pollinated Flowers 	Hummingbird Pollinated Flowers 
<p>Bees like to crawl into flowers that have a strong scent.</p>	<p>Butterflies like flowers that are bright and flat. They need plenty of room to spread their wings.</p>	<p>Hummingbirds like long flowers that are red, orange, or yellow and trumpet-shaped.</p>

Name: _____

Date: _____
