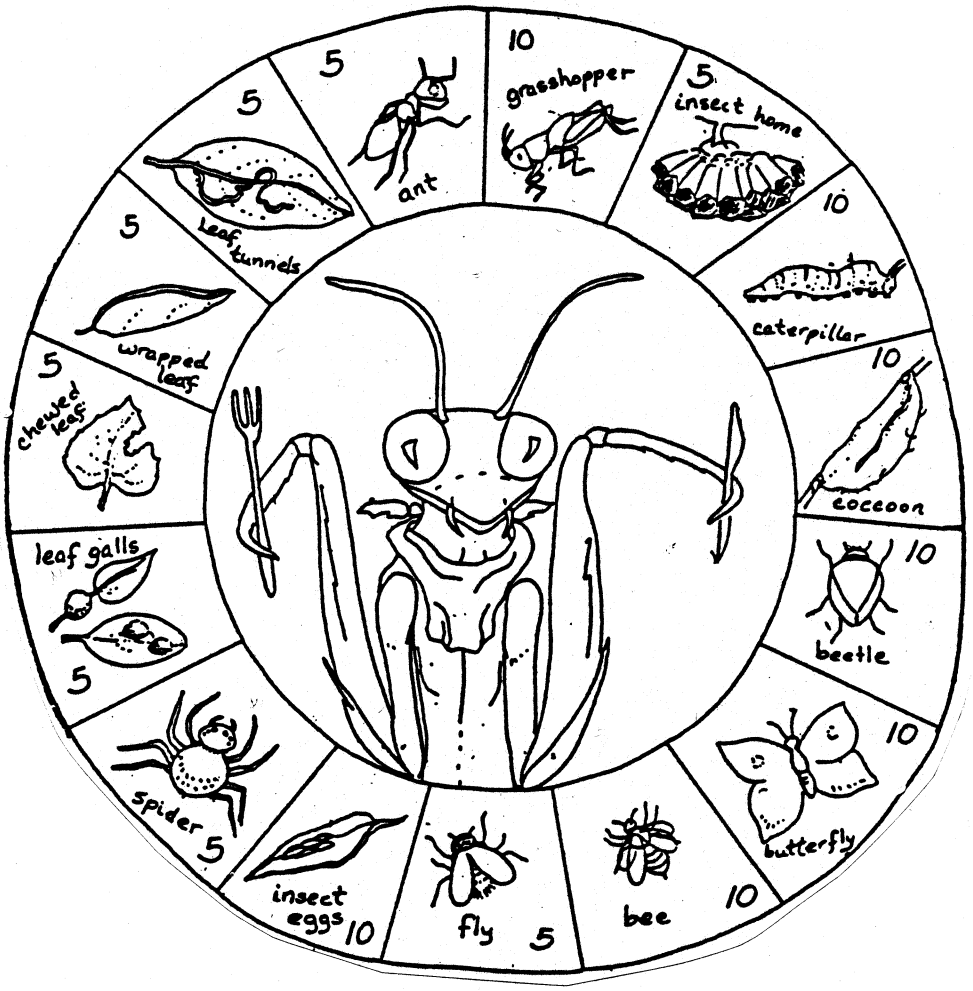
Mantis Lunch Hunt

Praying mantids perform a great service by gobbling up many of the insects that eat plants important to humans.

Check out your success as a praying mantis. Pretend you are hungry and explore looking for evidence of your prey! Add the correct number of points from the wheel for each thing that you find.

Caution: While you are playing, be sure to stay on the paths and handle the plants with care.



Tally Box:

0 to 30 pts: Just appetizers, don't quit your day job!
31 to 60 pts: Keep looking, you're still hungry!
61 to 90: Wipe your chin, you're full!
91 to 110: Congratulations, you're Super Mantis!
