

Continue Your Learning: Native Plant Growth Chart

Congratulations! You have a new native plant. Use a ruler to measure the height of your plant. Use the chart below to record the height and growth changes of your plant over time. Make sure to write down important changes like your plant's first buds and the day your flowers open! Draw a picture of your new plant on the back of this sheet.

Name of native plant: _____

Date planted: _____

Example: March 2, 2003	4.5 inches	The leaves are growing larger.

Name: _____

Date: _____

Lady Bird Johnson
